INSTITUTION

Instituto Superior de Engenharia do Porto - ISEP

Degree in Computer Engineering

2021 - 2025

Master´s in Data Engineering

2025 - present

isep Instituto Superior de Engenharia do Porto

SKILLS

- Teamwork
- Project Management
- Problem Analysis/Solving
- Development and Innovation
- Continuous Learning

LANGUAGES

- Portuguese
- English

ABOUT ME

Recent Computer Engineering graduate with a strong foundation in software development, embedded systems, and computer networks. Hands-on experience in academic and personal projects. Passionate about problem-solving, automation, and developing efficient systems.
Currently persuing Master´s Degree in Data Engineering.

TECHNICAL SKILLS

Programming and Software Development

• Proficiency in various programming languages - C, Java, Python, JavaScript, CSS, HTML.
• Development of web, mobile, and desktop applications.
• Use of development frameworks and tools - Spring, .NET.
•Software engineering practices, including design, implementation, testing, object oriented programming (OOP) and maintenance of software.

Information Systems and Databases

• Database management and administration.
• Modeling and implementation of information systems.
• Knowledge of SQL and relational and non-relational database management systems.

Computer Networks and Distributed Systems

• Fundamentals of computer networks and communication protocols.
• Network configuration and management.
• Concepts of distributed computing.

Computer Architecture and Operating Systems

• In-depth knowledge of computer architecture and hardware components.
• Operating system administration (Windows, Linux).

TRAININGS

Secure Networking Architect - C-Academy
